

OBJECTIVES:

- giving value to the rights of the assisted victims, through a process that allows them to take informed decisions regarding their options;
- maximising the organisational resources in offering education and support services, with the purpose to empower the victims and survivors of human trafficking or domestic violence;
- sustaining the professionals and the community working in this field in supporting victims and survivors.

STRATEGIC PRIORITIES 2011-2012:

1. Strengthening support services for beneficiaries

- sustaining an effective process of healing the traumas of domestic violence or human trafficking
- increasing the capacity of the beneficiaries to maintain healthy relationships

2. Increasing the access to services and advocacy activity (rehabilitation services and case management)

3. Increasing the organisational capacity (infrastructure and development)

4. Commitment to excellence in services (evaluation and quality assurance)

ACTIVITIES:

1. Awareness and education campaigns, in communities

Purpose: increasing the public commitment, with the purpose of supporting a future society with no tolerance for domestic violence

- informing materials for raising awareness on domestic violence and human trafficking
- educational activities
- assistance and collaboration partnerships

Example: SHOUT IT OUT campaign for involving the community in ending violence on victims from their proximity

Beneficiaries: 480 students, 15 teachers, 2 partner organisations

2. Internal training and media implication

- training and equipping the Solwodi team
- Solwodi – reference point between victims and destination countries (9 victims)
- collaborations for making a documentary film on victims (ex.: Mantra Film, ARD)

3. The rehabilitation programme of the Centres for counselling and recovery for victims and their children

- intervention in crisis situations
- individual and group counselling for victims – healing, empowerment, security, crisis recovery, developing life objectives, creating a support network
- individual and group counselling of children, educational and recreational activities
- holistic assistance programme – medical assistance, mental health and drogues abuse, children care and support services for children, psychological counselling, professional guidance, juridical assistance

Services are independent of victims' financial possibilities.
